Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-2 are rejected under 35 U.S.C. 102 (e) as being anticipated by West et al. (Publication No. 2003/0161 901 A1).

Paragraph (0037) at page 4 teaches a fruit juice and pulp mixed together with water and having a moisture content of 0.1 to 80%. The preamble “fertilizer” is considered a “use term” and adds little to the prior art product. The discovery of a new property or use of a previously known composition, even when that property and use are unobvious from the prior art, cannot impart patentability to claims to the known composition. *In re Spada*, 15 USPQ 2d, 1655.

2. Claims 1-2 are rejected under 35 U.S.C. 102 (b) as being anticipated by Yegorova (US Patent 6403086).

Art Unit: 1761

Col. 8, lines 51-55 teaches a first extract of *Morinda citrifolia* in water in a ratio of 1:4 (fruit : water). "The fertilizer" is use terminology and does not lend patentability to the claims. For composition claims, intended use of an otherwise old or obvious composition cannot render a claim patentable. *In re Zierden*, 162 USPQ 102, *In re Jones*, 50 USPQ 48, *In re Spada*, 15 USPQ 2d, 1655, *In re Thuau* 57 USPQ 324.

3. Claims 1-2 are rejected under 35 U.S.C. 102 (b) as being anticipated by Hahn et al. (US Patent 6405948).

Claims 14, 15, 21, 30 of the reference, teach extracting plant matter, such as from Noni (*Morinda Citrifolia*) fruit, in water, col. 5, lines 55-60; col. 37. Example 2 teaches a 30% water extract of Noni fruit.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
